

Acquired an [ECOMARK] at Stores and Restaurants Operated in Airports!

『Kansai Tabinikki』 『Kobe Tabinikki』 『Osaka Takoyaki TAKOBON』

Kansai Airport Retail & Services has acquired an “ECOMARK” certification for souvenir shops “Kansai Tabinikki” and “Kobe Tabinikki” operated in 3 airports in Kansai, as well as the “Osaka Takoyaki TAKOBON” restaurant in Itami Airport. The ECOMARK is an environmental label for products and services that are recognised as having a low environmental impact and contributing to environmental conservation and it is managed by the Japan Environment Association. The label, ISO 14024 Type I label, is also the only label in Japan that is authorised to use based on a strict third-party assessment.

We will continue to aim to acquire more ECO Marks, and we look forward to welcoming customers from all over the country to our community-based, environmentally friendly shops.
